

Assessment Question based on the story Zebras Zip.

1. How much more was in the new cereal box if Mr. Stuck N. Mudd purchased the box that doubled the dimensions of the original?
 - A. 2 times as much
 - B. 4 times as much
 - C. 6 times as much
 - D. 8 times as much

2. The Zurich Zebras won the district and are now going to state. The whole school will be going with them on the bus together. A new box of Frooty Loopys will need to be purchased. The dimensions of the new box will now be five times the original. How much more will the volume increase because of the new dimensions? Explain with a visual comparing the original box with the new box of cereal. Remember to label your dimensions and sides. If needed draw the trailer behind the bus! 😊
