BRING THE NIGHT SKY TO YOUR SCHOOL

A live, immersive traveling planetarium experience for Montana schools

4K UHD projection

YAMAHA sound

LIVE astronomy

TURN A GYM INTO A WINDOW ON THE UNIVERSE

MONTANA LEARNING CENTER
CANYON FERRY LAKE

Students step inside an inflatable digital dome for a guided tour of the Montana night sky—including constellations, planets, telescopes, and celestial objects visible at the time of your event. Every program is presented live and tailored to your audience, season, and schedule.

WHAT STUDENTS EXPERIENCE

- A guided tour of the Montana night sky as it appears during your event
- How telescopes reveal the universe, plus objects students can spot with the naked eye
- Approximately 30 minutes per show, with Q&A as time permits
- Montana Science Standards alignment; Ideal for grades 4–6, with options for grades Pre-K–12
- Multiple sessions can be scheduled throughout the day for different grades and group sizes

PRICING & ATTENDANCE

$10 STUDENT | **$15** ADULT | **TRAVEL** FEDERAL MILEAGE RATE + PER DIEM

MINIMUM ATTENDANCE

100 in the Greater Helena Valley
200 outside the Helena area

Smaller schools can partner with nearby schools or programs to share costs and make a visit possible.

NOW BOOKING

Let's talk dates, space, and a multi-session schedule that fits your school day!

SCHOLARSHIP ASSISTANCE

Qualifying public schools may reduce student costs by up to approximately 50%, based on Title I status and Free & Reduced Lunch participation.
